Dear Colleagues and Friends,

It is my great honor to precede the Editor-in-Chief (EIC) of Acta Cardiologica Sinica (ACS) starting July 2015. With the support from Prof. Jaw-Wen Chen, the immediate Past EIC, Prof. San-Jou Yeh, Publisher of ACS and President of Taiwan Society of Cardiology (TSOC), Prof. Yu-Lin Ko, Chairman of Publication Committee, Prof. Hung-I Yeh, General Secretary of TSOC, and the other 7 Deputy EICs (Ron-Bin Hsu, Yenn-Jiang Lin, Tsung-Hsien Lin, Ping-Yen Liu, Chun-Li Wang, Tzung-Dau Wang, Yen-Wen Wu), we continue to take the task to provide a global academic platform for the cardiologists.

The mission of the journal is to publish original articles of the highest scientific quality to support the practice, education, and research in the medical specialty of cardiology. For the past forty five years the ACS journal and these articles have represented the evolutional history of cardiology in Taiwan and the world. With the recent progression in the online submission and Pubmed registration, we hope to lead the society to a broader spectrum in the new era. ACS welcomes high impacted articles in the field of, but not limited to, stem cell biology, scientific guidelines and big database analysis. We are also dedicated to promote “precision medicine” in cardiology by translating scientific knowledge into practical therapy for advancing clinical management of patients.

ACS encourages dynamic and enthusiastic interactions between colleagues and authors. We welcome all inputs and comments from you.

Very best regards,

Pao-Hsien Chu, M.D., F.C.C.P., F.A.C.C, F.E.S.C.
Editor-in-Chief, Acta Cardiologica Sinica
Professor of Medicine, Chang Gung University College of Medicine
