We are glad you received the plaque.

The Simon Dack Award is very exclusive. Only 47 people have won it in total.

In 2009 the winners were 33 individuals. They were joined in 2010 by 14 more including yourself.

We consider this a sort of Hall of Fame achievement. Each year a few more outstanding reviewers will be inducted into the Hall.

You are the only Asian Cardiologist from any nation in the region to win this honor to date. Congratulations!

Best,
